Jasper van Grootel, 2005

For almost 5 years, the Plastic Fantastic collection has been JSPR's best-known furniture collection. The designer Jasper van Grootel, founder of JSPR, keeps expanding the collection every year with new furniture and accessories, completely covered with a thick layer of rubber! The quality of the rubber has now reached its highest level yet because of the new production techniques at JSPR Production. The rubber feels soft and is very flexible and therefore more durable. Any combination of colours is possible.
