

FLAMES

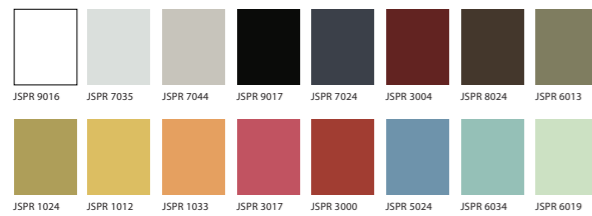

Jasper van Grootel

A series of lighting sources based on a refillable gas bottle system. These simple, cylinder-shaped elements are available in a variety of four different patterns, each with its own distinct play of shadow and light. These light elements add atmosphere and warmth to any garden or terrace. Little wheels underneath the Flames make them very easy to move.

MATERIALS & COLORS

FLAMES COLLECTION IS CRAFTED FROM LASER CUT STEEL. AVAILABLE IN 16 POWDER COATED STANDARD JSPR COLORS. CUSTOMISATION UPON REQUEST.
