Jasper van Grootel

The Framed collection is primarily inspired on the Aurora collection which has become a true JSPR classic. Crafted of anodized aluminum and fixed with retro led light bulbs these lighting fixtures bring the same heavenly light, but come with their own functionality since the rectangular shape enables them to truly highlight the characteristics of any venue. The versatility makes them even more functional since they can be used as either a wall-light or a chandelier.

Available in ten different sizes + EXTENSIONS to create settings from modest to impressive, this collection is seductive for everyone without a doubt.

- Further custom sizes on request.
- Custom colors on request
