Minimal+ design by JSPR

Minimal Plus created by JSPR distinguishes itself by its unique character. Straight sharp shapes combined with detailed striking star-shaped pattern, a sharp and hard appearance created from soft foam. The series consists of a variety of modular furniture elements that can be used individually or combined to create complete lounge areas. Ideal for private or public interiors both indoors and outdoors.

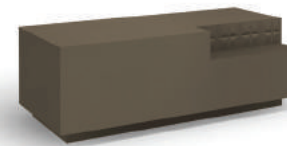

The series is entirely made of PU foam coated in Realskin rubber. Ideal for indoor and outdoor projects.
