Jasper van Grootel

The Lines collection is primarily inspired on the Aurora collection which has become a JSPR classic. Crafted of anodized aluminum and fixed with retro led lightbulbs these lighting fixtures bring the same heavenly light, but come with their own functionality since the linear shape enables them to truly highlight the characteristics of any venue. The versatility makes them even more functional since they can be used as either a wall-light or a chandelier.

Available in 12 different models ranging in style and length.

- Further custom sizes on request.
- Custom colors on request
