

UNION PENDANT

The iconic Union collection is now also available as a pendant light in two sizes. Each pendant offers a powerful downlight, complemented by an atmospheric light source that shines upwards and all around. Both models feature a custom see-through hexagon shaped mesh that has a subtle glow. Timeless design allows to enjoy these fixtures as single statement pieces or combined with each other to create a dynamic composition in any venue. Also perfect to combine with – of course – the Union wall fixtures!

Handcrafted in the Netherlands.
